Who is NAMMBA?

We are The National Association of Minority Mortgage Bankers of America. Our goal is to help make a difference in our industry by being involved in our industry. At NAMMBA, we want to increase the engagement of minorities and women within the real estate finance industry into roles which can positively impact our industry by providing diverse perspectives. CONNECT. GROW. LEAD.

Who do we serve?

NAMMBA is a purpose-driven organization that is dedicated to the inclusion of minorities and women in the mortgage industry who are advocates for sustainable homeownership in local communities. Our mission is to increase the engagement of minorities and women in the mortgage industry by actively being involved at the local, state and national level of the Mortgage Bankers Association.

How do we benefit our constituency?

NAMMBA believes all real estate finance professionals deserve an opportunity to grow and develop their skills within the industry while making a positive contribution to their respective institutions. We achieve this by preparing individuals to demonstrate a high level of professionalism and commitment to promoting sustainable homeownership in the communities they serve.

NAMMBA accomplishes its mission by:

- Educating, developing and mentoring professionals who represent the real estate finance segment within the industry.
- Advocating for public policy that supports sustainable home ownership.
- Facilitating relationships among mortgage banking firms, industry stakeholders and other real estate financing industry professionals.
- Developing programs and initiatives to introduce women and minorities into the real estate finance industry by collaborating with local colleges, universities and Historically Black Colleges & Universities.
How are we governed?

NAMMBA will be governed by a national board of directors that determines the mission and purpose of the organization, provide financial oversight, ensure adequate resources, ethical integrity and accountability and determine, monitor and strengthens the organization’s programs and services.

NAMMBA directors are mortgage professionals and other practitioners within the mortgage industry. NAMMBA also receives guidance from a Corporate Board of Governors (CBOG) who issue recommendations on issues key to the organization. CBOG leaders consist of professionals from the mortgage, real estate and housing industries.

How will we benefit you?

At NAMMBA, we will align all of our resources to deliver the following to our members:

- **Networking Opportunities** – NAMMBA conferences, seminars and local chapter meetings provide a robust forum for the engagement of members to share ideas, experiences and shared challenges. These gatherings offer a rich learning experience our members consider invaluable.

- **Advocacy** – Our goal is to be a powerful and influential voice on legislative issues related to lending practices and regulations that negatively impact the mortgage banking industry.

- **Leadership** – NAMMBA will mentor aspiring leaders and promote the placement of accomplished, highly skilled mortgage bankers into key positions throughout the mortgage industry.

- **Professional and Business Development** – The desire to become more and do more is a core competency that NAMMBA seeks to instill in its members through new education programs, business models, partnerships and alliances where diversity is highly valued and recognized.

Each affiliate is a legally independent organization that has an affiliate relationship with NAMMBA National. Members of NAMMBA chapters are by default members of NAMMBA National as well.
